## SUMMARY

A dedicated Computer Science student and software developer specializing in the MERN stack, with additional expertise in MySQL, React Native, and n8n automation workflows. Recently completed a summer internship at QualiZeal Technologies, contributing to an internal project while strengthening skills in building responsive and scalable web applications. Successfully deployed multiple full-stack applications and implemented automation solutions. Passionate about learning new technologies and creating real-world projects.

## EDUCATION

2022 - 2026	<b>Rajiv Gandhi University Of Knowledge Technologies, Srikakulam</b> Computer Science Engineering Aggregate: 90%	B.Tech
2020 - 2022	<b>Rajiv Gandhi University Of Knowledge Technologies, Srikakulam</b> Maths, Physics and Chemistry Aggregate: 98%	PUC
2019 - 2020	<b>ZP High School, Thotapalli</b> Aggregate: 100%	SSC

## PROJECTS

PERN Stack	<b>Digital Civic Engagement Platform</b> Developed a web application to enable citizens to report locality issues with media attachments and location tagging, ensuring efficient routing to relevant authorities. Key features include issue prioritization via upvotes, maps integration with heatmap visualizations, and data analytics for strategic decision-making.
MERN Stack	<b>Smart Attendance System</b> A full-stack web application for hostel attendance tracking using QR code scanning, built with React, Node.js, Express, MongoDB, and Tailwind CSS. Supports role-based access for students and admins, enabling secure login, attendance logging, and history tracking through a responsive UI.
React Native	<b>UniConnect</b> UniConnect is a React Native mobile app designed to streamline issue reporting in universities. It allows students to digitally post, track, and resolve concerns, eliminating manual paperwork. Issues are categorized and routed to the appropriate authorities, ensuring efficient communication and resolution through a user-friendly interface.
n8n	<b>Placement Cell Automation System</b> Built an end-to-end automation workflow using n8n, Google Sheets, and Twilio to streamline college placement activities. Automated extraction of key details (company, role, CTC, apply link) from emails, stored structured data in Sheets, and sent real-time WhatsApp notifications to students. Integrated Google Gemini AI for intelligent email parsing and classification.

## AWARDS AND ACHIEVEMENTS

May 2025–July 2025	<b>MERN Stack Developer Intern</b> QualiZeal Technologies India Pvt. Ltd. — Hyderabad, Telangana <ul style="list-style-type: none"><li>Successfully completed an internship program focused on full-stack web development using the MERN stack.</li><li>Gained hands-on experience in technologies like HTML, Tailwind CSS, React.js, Node.js, Express.js, MongoDB, and GitHub. Actively contributed to the development of an internal project during the internship.</li></ul>
Oct 2024–Jan 2025	<b>MERN Stack Developer Traininee</b> ScaleOrange Technologies Pvt Ltd — Hyderabad, Telangana <ul style="list-style-type: none"><li>Successfully completed my training as a MERN Stack Developer at ScaleOrange Technologies Pvt Ltd.</li></ul>
2023-2024	<b>Executive member in SGC CODING CLUB</b> RGUKT, Srikakulam <ul style="list-style-type: none"><li>As an executive member of the Coding Club initiated by SGC at my college, I played a key role in organizing and leading various activities aimed at enhancing coding skills.</li></ul>

## CERTIFICATIONS

2023 – 24	<b>edX Verified Certificate for Developing Front End Apps with React</b>	IBM
2023 – 24	<b>edX Verified Certificate for Back-end Application Development with Node.js and Express</b>	IBM
2023 – 24	<b>MongoDB - The Complete Developer's Guide 2024</b>	Udemy
